**RE: T-Mobile Northeast LLC (NJ-06-856D)
New Rooftop Wireless Telecommunication Facility
600 Rodgers Boulevard North, Town of Harrison, Hudson County, N.J.
Block 24, Lot 8.01
Zone: NC Neighborhood Commercial**

Dear Ms. Simoes:

Please be advised that this office represents T-Mobile Northeast LLC ("T-Mobile") with respect to a new rooftop wireless telecommunication facility at the above referenced address. This application was previously pending before the Board when it was withdrawn, without prejudice, on July 20, 2020. T-Mobile now wishes to proceed with the application and is enclosing twenty (20) sets of the following documentation for consideration:

1. Standard Development Application, including Owner's Affidavit of Consent, Application Addendum, 10% disclosure form, 200' list, tax certification and Hudson County Planning Board approval;
2. RF Comprehensive Plan and Report by Piercon Solutions, last revised 4/9/19 (*an updated report will be submitted prior to the first hearing*);
3. Photographic Simulations report by David Karlebach, dated 11/27/2020;

Ms. Isabel Simoes

Zone: NC Neighborhood Commercial
Page 2

4. Copy of Survey prepared by Borrie, McDonald & Watson, dated 11/18/16;
5. Site plan drawings by SDG, last revised 6/3/19, depicting the location and scope of the proposed telecommunication facility.

Kindly advise as to first available public hearing date for this matter.

Thank you for your attention to this matter and should you have any questions or wish to discuss the contents herein, please feel free to contact me at (201) 767-4122.

Very truly yours,

Frank Ferraro

APPLICATION ADDENDUM

NJ-06-856D

T-Mobile Northeast LLC

600 Rodgers Boulevard N., Town of Harrison, Hudson County, N.J. 07029

Block 24, Lot 8.01

NC Neighborhood Commercial Zone

I. Introduction. T-Mobile Northeast, LLC ("T-Mobile") is licensed by the Federal Communications Commission ("FCC") to provide cellular communication services to the public. The T-Mobile license area is known as the New York Major Trading Area, a geographic area which includes, among other areas, Hudson County, New Jersey.

In this application, T-Mobile is seeking to address an area of deficient coverage/capacity in its network by proposing a new FCC licensed rooftop wireless telecommunication facility at 600 Rodgers Boulevard N., Town of Harrison, Hudson County, N.J. 07029. The property is occupied by a 41' tall mixed-use commercial/residential building

T-Mobile is proposing to install a new rooftop wireless telecommunication facility on the subject building consisting of nine (9) panel antennas, RRH's, 2 GPS antennas and 1 dish antenna ballast mounted in three sectors above the roof at a height of 50'-3" (i.e. 8'-10" above parapet). In addition, equipment cabinets and appurtenances are proposed within a 10' x 17' equipment room on the first floor of the building. Two air conditioning units will be installed on the roof to cool the equipment room. Utility conduits will be routed up the exterior of the building from the first floor to the roof along the rear corner of the building.

The proposed facility will only require electric and telco service. No additional parking is proposed in this application since the wireless installation is an unmanned facility and technician visits which will take place only once every 4-6 weeks. The use is passive in nature and will not result in any objectionable level of dust, glare or vibration. Furthermore, the proposed T-Mobile facility will not cause any interference with any pre-existing apparatus at the site and will conform with all FCC regulations.

II. Requested Approvals. The subject property is located within the NC Neighborhood Commercial Zone ("NC"). Pursuant to Sec. 17-82.10B.5 of the Zoning Ordinance, "Cellular/wireless communication towers, antennas and associated facilities and devices (hereinafter collectively referred to as "cellular antennas" shall be permitted as a conditional use in the CC and I zones, provided that no cellular antennas shall be sited within two hundred fifty feet of an SF-1, SF-2, SF-3, 2F-1, 2F-2, 3F, A or SH zone." T-Mobile is not proposing its facility within a CC or I Zone and the T-Mobile facility will be within 250' of the 2F-1 Residential Zone (i.e., 36'-1" proposed). Finally the maximum permitted building height in the NC zone 40' whereas, the existing building is 41'-5" tall and the T-Mobile antennas will reach a height of 50'-

3". As result, T-Mobile requests the following relief from the Harrison Zoning Board of Adjustment:

- i. Use Variance from Section 17-82.10B.5 and Section 17-81.4 to permit a wireless telecommunication facility in the NC Zone;
- ii. Height Variance from Section 17-81.5 as the maximum permitted height in the zone is 40', whereas the existing building is 41'-5" tall to the parapet and the proposed T-Mobile antennas will reach a maximum height of 50'-3";
- iii. Separation variance per Section 17-82.10B.5 since no cellular antennas shall be sited within 250' of an SF-1, SF-2, SF-3, 2F-1, 2F-2, 3F, A or SH zone, whereas, the T-Mobile facility will be setback 45'-10" from the 2F-1 Residential Zone;
- iv. Major Site plan approval; and
- v. Any additional approvals, variances, waivers, exceptions or any other relief, which may be deemed necessary upon review of the application by the Zoning Board of Adjustment; including, but not limited to, the continuance of any existing non-conforming conditions on the property.

The above referenced bulk variances are noted, as required, since the applicant is requesting a use variance and any bulk variances are therefore subsumed in the use variance relief. Pursuant to the Supreme Court's decisions in *Larry Price v. Himeji, LLC and the Union City Zoning Board of Adjustment*, 214 N.J. 263, 299 (2013), "a use variance by its nature, carries with it the implications that the ordinary bulk and density requirements of the zone will not be applied." This means that the "board, as part of granting a use variance, consider the other requested variances as ancillary to the principal relief being sought." *Id. at 299*. More specifically, the Supreme Court has observed that "a Zoning Board in considering a use variance must then consider the overall site design, with the result that the 'c' variances are subsumed in the 'd' variance. *Id. at 301, quoting Puleio v. North Brunswick Twp. Board of Adjustment*, 375 N.J. Super. 613, 621 (App. Div 2005). As set forth above, generally application for a "c" variance and a "d" variance cannot coexist. If an application is for a use not permitted in the zone, the bulk regulations designed for that use cannot be applicable to the intended use. In essence, the "c" variances are subsumed in the "d" variance." Accordingly, the applicant's position is that no "c" or bulk variances are required.

Notwithstanding the above, the applicant believes that the bulk variance relief requested in this application is justified under N.J.S.A. 40:55D-70c(2) which states that "where in an application or appeal relating to a specific piece of property the purposes of this act would be advanced by a deviation from the zoning ordinance requirements and the benefits of the deviation would substantially outweigh any detriment, grant a variance to allow departure from regulations pursuant to article 8 of this act."

IV. Use Variance: To obtain a use variance, an applicant must demonstrate that there are "special reasons" for the grant of the variance and that there will not be a substantial negative impact if the variance is granted. N.J.S.A. 40:55D-70d. The "special reasons" are often referred

to as the positive criteria and can be demonstrated if the use is inherently beneficial, or the site is particularly well suited for the use. In Smart SMR v. Fairlawn Bd. of Adj., 152 N.J. 309 (1998), the court held that with telecommunication providers, an FCC license generally establishes that the use promotes the general welfare. Id. at 336. In addition, wireless telecommunications provide access to 911 services, internet services, and roadside assistance programs, all of which promote the public welfare.

The New Jersey Courts have found the “particularly suited” standard satisfied for various reasons including when: 1) the site is centrally located in the carrier’s search area; or 2) propagation maps or capacity charts demonstrate an inadequacy of signal coverage or capacity; or 3) the existence of a building in a commercial zone which can accommodate the facility thereby eliminating the need for a new monopole or support structure; or 4) viable alternative sites are not available. Ocean County Cellular Tel. Co. v. Township of Lakewood Bd. of Adjustment, 352 N.J. Super. 514, 525, certif. denied, 175 N.J. 75 (2002). The applicant will offer evidence proving the above criteria at the public hearing.

A. The site is particularly well suited for the use. “To demonstrate that a site is particularly suited for a telecommunications facility, the applicant initially must show the need for the facility at that location.” New Brunswick Cellular Tel. Co. v. Borough of South Plainfield Zoning Bd. of Adjust., N.J., A-21 decided June 30, 1999 at 16. The need for a site can be based upon the carrier’s lack of adequate radio signal coverage in a geographic area, or, as in the New Brunswick case, a lack of capacity to serve its customers. This need is manifested as a coverage deficiency or coverage gap within the existing network. The New Jersey Appellate Court in New York SMSA v. Board of Adjustment of Township of Weekhawken, 370 N.J. Super. 319, 851 A.2d 110 (2004) found the particularly well-suited standard satisfied when the applicant, “using propagation maps and expert testimony, established a need for an additional wireless communication facility and demonstrated that the proposed site is located so as to redress the coverage problem. It also showed that no technically comparable alternative sites are available.” Therefore, the applicant must demonstrate only a coverage deficiency (i.e., “coverage gap”). With respect to the availability of alternative sites, the court explained in the recent seminal case of Larry Price v. Himeji, LLC and the Union City Zoning Board of Adjustment, 214 N.J. 263, 292-293 (2013), that although the availability of alternative locations is relevant to the analysis, demonstrating that a property is particularly suitable for a use does not require proof that there is no other potential location for the use, nor does it demand evidence that the project ‘must’ be built in a particular location. Rather it is an inquiry into whether the property is particularly suited for the proposed purpose, in the sense that it is especially well-suited for the use, in spite of the fact that the use is not permitted in the zone.”

In the case before the Board, it will be demonstrated through expert testimony and propagation exhibits that T-Mobile has a coverage and/or capacity deficiency in this area of the Town and that the proposed site will serve to remedy same. Furthermore, there are no available conditionally permitted locations in the area which could serve as a more suitable mounting location for the antennas given the need for a minimum antenna height of 50’-3” to service the coverage/capacity deficiency and the need to be centrally located within the gap area.

It is respectfully submitted that the subject property is particularly well-suited for the proposed use. Important factors which support a grant of variance relief include the following: 1) the site is centrally located between the existing T-Mobile sites permitting T-Mobile to provide its service where there is currently a deficiency or gap in reliable service; 2) the existence of a building on the property eliminates the need to build a new monopole in the area; 3) the building has room on the building rooftop for the antennas and in the building for the equipment so as to accommodate the use; 4) the site is located within a commercial zone; and 5) there are no available tall structures in the area which could serve as a more suitable mounting location for the antennas given the need for a minimum antenna height of 50'-3" to service the coverage/capacity deficiency.

B. The negative criteria. In addition to proving the positive criteria, an applicant for a use variance must also demonstrate the negative criteria, i.e., that the variance can be granted without substantial detriment to the public good and that it will not substantially impair the intent and the purpose of the zone plan and zoning ordinance. N.J.S.A. 40:55D-70. As noted above, T-Mobile proposes to install 9 panel antennas and appurtenances on the building rooftop. equipment cabinets inside the building. Given the de minimis nature of the improvements, the facility will not have a negative impact on the surrounding area.

In addition the wireless facility will not produce any objectionable noise, vibrations, smoke, dust, odors, heat, or glare and will operate well within all applicable state and federal standards with respect to radio frequency emissions. Therefore the proposed facility, if approved, would not have a negative impact on the public good, or the intent and purpose of the zone plan and zoning ordinance.

The final step in the variance analysis with respect to telecommunications uses is to conduct the four step balancing test set forth by the courts in Sica v. Bd. of Adjustment of Wall, 127 N.J. 152, 159-60 [603 A.2d 30] (1992), to determine whether on balance the variances can be granted. First, the public interest at stake should be determined. Specifically with respect to telecommunications facilities, the court in Smart SMR v. Fairlawn Bd. of Adj., 152 N.J. 309 (1998), held that an FCC license generally establishes that the use promotes the general welfare. Id. at 336, and therefore the public interest in reliable telecommunication services has been adjudicated to be substantial. Second, the Board must identify the severity of the harm, if any, which would be caused if the variance is granted. In this case, the only possible impact is visual and the applicant submits that it is a minimal impact since all the antennas can be painted to blend in with the building or sky and the equipment will be located out of view within the building itself. Third, if the Board determines that there is a harm caused by the grant of the variance, the question becomes whether that harm can be mitigated by the imposition of conditions. Here, T-Mobile believes there is no discernible harm caused by this installation given the de minimis nature of the improvements proposed. Lastly, on balance, the Board must weight the potential benefits of granting the variance relief against the detriments of same. The applicant submits that the benefits of approving this application are substantial as the public relies heavily on effective wireless telecommunications and that there are minimal if any detriments associated with this facility. For this reason, and those stated above, the applicant requests that the use variance relief be granted.

V. Height Variance if required. While the proposed antennas will exceed the permitted building height in the NC Zone of 40', it will be visually innocuous since they will be mounted on the roof of an existing non-conforming 41'-5" tall building at a maximum height of 50'-3". The wireless ordinance permits antennas to be installed at the minimum height necessary to achieve the purposes of the cellular antennas and T-Mobile is proposing the minimum height needed. The courts have found that such antennas heights do not substantially impact the community. For instance, in Smart, a 90-foot monopole was replaced by a 140-foot monopole adjacent to a residential zone, which the Supreme Court referred to as "merely a 50-foot increase in height." 152 N.J. at 333. In Kingwood Tp. Volunteer Fire Co. v. Board of Adjustment, 272 N.J. Super. 498, 509 (1993), the court held that the replacement of a 75-foot tower with a 197-foot tower would impose, at most, minimal intrusion on the surrounding community. Here, no new monopole is proposed and the new antennas will be installed only 8'-10" above the rooftop parapet. Therefore, the requested height variance is minor in nature.

VI. Conclusion: For the above referenced reasons and those to be adduced during the public hearing, the applicant respectfully requests that a use variance, height variance, a separation variance and preliminary and final site plan approval be granted with respect to this application.

(Note: For details of all submissions, see Article III. Applicant should check off all items as submitted, not applicable, or waiver requested. If waiver is requested, reasons shall be indicated in separate submission.)		X		
1.	Plat or plan drawn and sealed by a P.E., L.S., P.P. or R.A. as permitted by law and based on a current survey.	X		
2.	Scale: 1" = 30' or as approved by Board Engineer.	X		
3.	Current survey upon which plat or plan is based.	X		
4.	Map size: 8 - 1/2" x 13" 15" x 21" 24" x 36"	X		
5.	Title block and basic information: a. Title b. Date of original preparation and date(s) of revision c. North arrow and reference meridian d. Ratio scale and graphic scale e. Tax map block, lot numbers and zone f. Name, address and license number of person preparing plat or plan g. Name and address of owner of record and applicant, if different from the owner (Where more than one sheet is required, the above information shall appear on each sheet and all sheets shall be appropriately labeled, numbered and bound.)	X X X X X X		
6.	The first sheet of a series of plats or plans submitted for preliminary approval shall contain, in addition to the above, the following: a. A keymap at a scale of 1" = 500' or less showing zone boundaries b. The names and addresses, lot and block numbers of all property owners within 200' of the tract boundary line including adjoining municipalities c. Signature blocks for the Board Chairperson, Board Secretary and Board Engineer d. Chart of the zoning requirements for the zone, what is proposed, and variances indicated	X X X X		
7.	For subdivisions, contour lines at vertical intervals not greater than 5 feet for land with natural slopes of 10 percent or greater and at vertical intervals of not greater than 2 feet for land with natural slopes of less than 10 percent.		X	
8.	For site plans, a grading plan showing, at 2 feet contour intervals, existing and proposed contours and elevations. No ground disturbance proposed		X	
9.	The location of existing watercourses and any natural features, including flood plains, wetlands and soil types on the site and within 50 feet. no ground disturbance proposed		X	
10.	The area of the tract to be subdivided or developed in square footage and the location, lot area, width and depth of any existing lot or lots proposed to be subdivided.		X	
11.	Location of all existing and proposed buildings, with building setbacks, front, side and rear yard distances.	X		
12.	Location of all structures within 200 feet of the property. Photo-sims have been provided showing views of the facility from surrounding properties.			X

APPLICATION FOR PRELIMINARY APPROVAL OF MAJOR SUBDIVISIONS AND SITE PLANS				Submitted	Not Applicable	Waiver Requested
13.	A stormwater management plan showing the location, type and size of any existing and proposed bridges, culverts, drainpipes, catch basins and other storm drainage facilities. No ground disturbance proposed.				x	
14.	A soil erosion and sediment control plan prepared in conjunction with Article V.				x	
15.	A circulation plan showing proposed vehicle, bicycle and pedestrian circulation systems. The plan shall include the locations, typical cross-sections, centerline profiles and type of paving for all proposed new streets and paths. Unmanned facility				x	
16.	Plans of proposed potable water and sanitary sewer utility systems showing feasible connections to existing or any proposed system. If a public water supply or sanitary sewer system is available, the owner shall show appropriate connections thereto on the plat or plan. No water or sewer service needed				x	
17.	Location of any proposed off-street parking areas with dimensions showing parking spaces, loading docks and access drives and a traffic circulation pattern showing all ingress and egress to the site. None - no new parking proposed.				x	
18.	Location and description of all proposed signs and exterior lighting. None proposed				x	
19.	Provision for storage and disposal of solid wastes. No waste will be generated				c	
20.	For site plans, the preliminary floor plans and preliminary building elevation drawings showing all sides of any proposed building or buildings. The final floor plans and building elevations drawings submitted to the Construction Code Official for issuance of a building permit shall conform with the preliminary plans and drawing approved by the Board. No change, deletion or addition shall be made to said final plans and drawings without resubmission and reapproval by the Board Two elevations shown and photo-sims					x
21.	All proposed buffers, landscaping, fences, walls, hedges or similar facilities. The landscaping plan shall show in detail the location, size and type of all plant material, including ground cover, to be used on the site. Common names of all landscaping material shall be indicated. No proposed or required for this rooftop facility				x	
22.	A copy of any protective covenants or deed restrictions applying to the land and being subdivided or developed and a notation on the plat or plan of any easements required by the Board, such as, but not limited to, sight triangle easements. Said easements may also include utility lines, public improvements and ingress and egress for emergency vehicles. None				x	
23.	A copy of such guarantees, covenants, master deed or other document which shall satisfy the requirements of the Board for the construction and maintenance of any proposed common areas, landscaping, recreational areas, public improvements and buildings. None				x	
24.	A list of all licenses, permits or other approvals required by law, including proof of service. County Planning Board application provided			x		

APPLICATION FOR PRELIMINARY APPROVAL OF MAJOR SUBDIVISIONS AND SITE PLANS		Submitted	Not Applicable	Waiver Requested
25.	For any subdivision of 6 or more lots, or for a variance to construct a multiple dwelling of 25 or more dwelling units, or for site plan approval of any non-residential use, a corporation or partnership shall list the names and addresses of all stockholders or individual partners owning at least 10 percent of its stock of any class or at least 10 percent of the interest in the partnership, as the case may be. If a corporation or partnership owns 10 percent or more of the stock of a corporation, or 10 percent or greater interest in a partnership, subject to disclosure pursuant to the previous paragraph, that corporation or partnership shall list the names and addresses of its stockholders holding 10 percent or more of its stock or of 10 percent or greater interest in the partnership, as the case may be; and this requirement shall be followed by every corporate stockholder or partner in a partnership, until the names and addresses of the non-corporate stockholders and individual partners, exceeding the 10 percent ownership criterion have been listed.	x	x	
26.	The Board may require the applicant to submit an environmental impact assessment as part of preliminary approval if, in the opinion of the Board, the development could have an adverse effect on the environment. No ground disturbance proposed		x	
27.	The Board may require the applicant to submit a traffic impact statement as part of preliminary approval if, in the opinion of the Board, the development could have an adverse effect on off-site traffic and circulation. Unmanned facility proposed		x	
28.	Applicant shall submit twenty (20) sets of folded plans.	x

17-74.4 Variance Application Checklist

VARIANCE APPLICATION CHECKLIST	Submitted	Not Applicable	Waiver Requested
1. Name, address and telephone number of applicant(s) and owner(s).	X		
2. Address of the subject property.	X		
3. Lot and block number of the premises in question.	X		
4. Zone in which the property is located.	X		
5. Description of what the applicant seeks to do.	X		
6. Specific enumeration of the variances requested or action sought.	X		
7. Specification of the section(s) of the Zoning Ordinance from which relief is sought.	X		
8. Specification of each particular zone requirement that the proposal would violate.	X		
9. If the application is an appeal from a decision or order of the Zoning Officer, the date of the decision or order of the Zoning Officer.		X	
10. The applicants' reasons for the Board to grant relief.	X		
11. Summary of specific facts which demonstrate that the relief sought can be granted without substantial detriment to the public good and substantial impairment of the intent and purpose of the Zone Plan and Zoning Ordinance.	X		
12. If there has been a previous application to the Zoning Board of Adjustment or to the Planning Board involving the premises in question, the date of filing, the nature of the application and the disposition made.		X	
13. Description of the proposed structure, use of changes.	X		
14. Size of the lot (in square feet).	X		
15. Dimensions of the lot.	X		
16. Percentage of the lot occupied by buildings and impervious coverage.	X		
17. (a) Height of building, stories and feet.	X		
(b) Front yard depth.	X		
(c) Rear yard depth.	X		
(d) Side yards, width (both).	X		
18. Prevailing front yard setbacks of adjoining lots.		X	
19. Where applicable, rear yard setbacks of adjoining lots.		X	
20. Date of acquisition of property, and from whom.		X	
21. State of the number of dwelling units in existing building(s).		X	
22. State whether the applicant or owners own or have under contract to purchase any adjoining lands. Set forth lot(s) and block number(s). NO		X	
23. State whether the application is or is not to be accompanied by a separate application for subdivision, site plan or conditional use approval. If it is, see Planning Board checklist. MINOR SITE PLAN APPROVAL	X		

4/30/98

VARIANCE APPLICATION CHECKLIST	Submitted	Not Applicable	Waiver Requested
24. Submit the following documents with the application: (a) Copy of an area map showing all lots within two hundred (200) feet of the property. SEE TAX MAP (b) List of names, addresses, lot and block numbers, as they appear on the official tax records of the Town, of all owners of property within two hundred (200) feet of the property affected by the application and upon whom the notice must be served in the manner provided by law. (c) Copy of survey clearly indicating the buildings and improvements thereon with all front, side and rear yard dimensions and setbacks from the property lines. (d) Copies of subdivision, site plan or conditional use applications when applicable. (e) Certification that taxes are paid.	X X X X	 X	
25. If the survey is more than one (1) year old, attach certification of the applicant or owner that the survey accurately represents the status of the premises and all improvements at the time of filing for the variance. Applicant represents that survey is accurate.	X		
26. At least ten (10) days prior to the hearing, the applicant shall serve prescribed notice on all owners of property within two hundred (200) feet. Note: This may require the inclusion of an adjoining municipality; the County Planning Board when county roads or lands are involved; and the Commissioner of Transportation of the State of New Jersey when a state or interstate highway is involved.	X		
27. The applicant must submit the original and twenty (20) copies of the application, properly completed, and twenty (20) folded copies of a plot plan, map or survey, drawn to scale, an affidavit of proof of service, with a copy of the notice and the list furnished by the Administrative Officer of the municipality of all those persons or entities served (service shall be made by certified mail or personal service).	X		
28. All applications for consideration of the Board of Adjustment must be filed fourteen (14) days prior to the date of hearing. Proper notice given to those requiring service upon them, and publication made, at least ten (10) days prior to the date of hearing before the Board of Adjustment	X		
29. Written consent of the owner, if the owner is different from the applicant.	X		
30. The name, address and phone number of the attorney, if any, representing the applicant.	X

RE: HCPB Application No. 2019-54-SP
STATUS: Administratively Approved
T-Mobile-NJ-06-856D
600 Rodgers Boulevard
Block 24, Lot 8.01
Harrison, NJ 07029

Mr. Ferraro,

Please be advised that the Hudson County Planning Board application #2019-54-SP was administratively approved by the Board at its regular meeting held on January 21, 2020. Therefore, no further action is required by the applicant.

If you have any questions or need additional information, please feel free to call the Division of Planning during regular business hours at 201-217-5137, or email Stephanie Lee at slee@hcnj.us.

Sincerely,

A handwritten signature in cursive script, reading "Stephanie Lee", is written over a horizontal line.
